**"August Flower"**  
"I inherit some tendency to Dyspepsia from my mother. I suffered two years in this way; consulted a number of doctors. They did me no good. I then used **Relieved In your August Flower** and it was just two days when I felt great relief. I soon got so that I could sleep and eat, and I felt that I was well. That was three years ago, and I am still first-class. I am never without a bottle, and if I feel constipated the least particle a dose or two of **August Flower** does the work. The beauty of the medicine is, that you can stop the use of it without any bad effects on the system. Constipation While I was sick I felt everything it seemed to me a man could feel. I was of all men most miserable. I can say, in conclusion, that I believe **August Flower** will cure anyone of indigestion, if taken Life of Misery with judgment. A. M. Weed, 229 Bellefontaine St., Indianapolis, Ind."

About Sitting Erect and Lounging  
The crusade which began some months ago against the habit of Americans "sitting on their spines" has suddenly started up again. The lackadaisical, round shouldered and slanting carriage of New Yorkers is noticeable in nearly all public places. I have often observed, in glancing over the people in the big restaurants, that the diners lounged in their chairs almost without exception. The man who sat erect in a sensible fashion was a great rarity. All along Broadway loungers in hotels are sprawled over their seats in a similar way, and nothing is more common than to see a man slide down in his seat in the theater until his knees are wedged against the chair in front of him and his neck rests upon the back of his own chair. In railroad trains there is a similar exhibition of lackadaisical, sprawling, lounging and half recumbent men. I have a notion that all of this is due to a certain extent to ignorance. Men who have long journeys to go through should try the effect of sitting upright in the corner of a seat one day and sprawl all over the seat the next. They will find that the percentage of fatigue is immeasurably smaller when sitting squarely in the seat than when trying to cover it in a recumbent position. So it is in the street car, the cab and the elevated trains. The principal advantage of the erect posture is that when a person sits in this way, without leaning against the back of the seat, the part of the car is so distributed that it never reaches the head. There is much more comfort to be had in sitting erect than in lounging — Blakeley Hall in Brooklyn Eagle

The most unhappy period of marriage, according to French divorce statistics, is for the period extending from the fifth to the tenth year. After that the figures drop rapidly. Only 28 per cent. of the couples seek divorce between their tenth and twentieth years of union. Only one pair in 100 seeks to cut the knot after the period over thirty and under forty years.

The fourth bridge was begun in 1881. There were then only two cantilever bridges in existence, one of them carrying the Cincinnati Southern railroad across the Kentucky river, and the other spanning the river Warthe at Posen, in Germany. Both of these were built in 1876.

Among the articles made of asbestos are intended to guard the hands of firemen, as they are not affected by heat, the workman thus protected can grasp hot irons, crucibles and the like without discomfort.

Experiments show that an electric current will travel over a good conductor at the rate of 500,000 miles a minute, or around the earth in three seconds. Light travels at the rate of 1,000,000 miles a minute.

## CAMPBELL ON THE STUMP.

Governor Campbell, of Ohio, who has been ill since he was renominated, has so far recovered as to be able to participate in the campaign. His first speech was delivered at Sidney last Thursday at one of the largest political meetings ever held in Northern Ohio. Reviewing Major McKinley's speech, Governor Campbell said:

"In his opening speech Major McKinley plays a number of variations in a high key upon the 'dishonest dollar,' the 'shoddy dollar,' the 'short dollar' and the 'eighty-cent dollar.' He then touches a minor key, and proceeds to bewail the sad condition of the poor old soldier, whose little stipend of \$12 per month will, he predicts, shrink to \$9 60 should we enter upon the free coinage of silver.

"Now is the time and this is the place to respectfully inquire of the dear old soldier why, upon the 5th day of November, in the year of our Lord 1877, as page 241 of the Congressional Record discloses, he not only voted for the free and unlimited coinage of silver, but so eager was he to pay off the soldier in 'eighty-cent dollars' that he actually voted to suspend the rules in order that not one moment might be lost in the infliction of this 'great outrage,' as he now terms it, upon helpless pensioners.

"Evidently, Mr. McKinley had forgotten his first love—silver—during the last campaign, for on October 27, 1890, he addressed a letter to the Stark County Farmers' Alliance, wherein he wrote:

"I would honor gold and silver alike. What does that mean? Especially in the light of the Mayor's long-time devotion to silver? Can two metals be honored alike, when an untimely amount of them may be taken to the mint for coin while the other one is not coined, and but a limited amount stored as pig metal in the vaults of the Treasury? The truth is that in Ohio (notwithstanding the declaration in their platform) and everywhere else, especially in the Central and Western States, the Republican party is seriously divided upon the free coinage of silver. In the United States Senate the vote on that question stood sixteen Republicans for free silver and twenty-six against it. The Republican conventions in many States, beginning with Indiana and moving westward, have declared in favor of it. Doubtless, also, the Democratic party is equally divided. There is an honest difference of opinion concerning the time and manner in which silver can be restored to the place in our coinage which it occupied prior to its stealthy demonetization in 1873.

"But the entire Democracy desire to see this done with honesty, and as speedily as existing conditions will permit. We do not intend that this subject shall go undebated, neither do we intend that our enemies shall divert us from the decisive issue of the tariff. The Ohio Democracy proposes to defend bi-metalism, which is the right of both metals to unlimited coinage. Although we may differ among ourselves as to the means of reaching such coinage, we most emphatically do not believe in the doctrine enunciated by the Ohio Republican platform, which endorses the amended Coinage Act of the last Republican Congress. Under this law, paper certificates are issued, but no silver will be coined, save in the event of the redemption of such certificates. The law is designated to stop the coinage of silver. These certificates are virtually warehouse receipts for so much bullion, and are based upon its daily fluctuations in the market. If any dollar could be more thoroughly a shoddy dollar than these pig-metal paper certificate dollars it would be difficult to describe.

"There is no good reason why the Government should not store pig lead or pig iron as well as pig silver, and issue circulating notes upon them. The next step in logical sequence, if you follow out the Republican theory, would be to store wheat, corn and oats in Government elevators and issue currency on them. This is the Alliance idea, which the Republicans inconsistently denounce as visionary. The issue of certificates, which are receipts for articles or merchandise returnable on demand, is not a function of the Government, whose power is limited by the Constitution to the coining of money. It is more pawn-broking. Printed tickets or certificates might as well be issued upon the temporary deposit of watches, jewelry, or second-hand clothes. Under this new system of financing, the Mint at Philadelphia should be abandoned and the symbolical sign of three golden balls hung over the entrance of the Treasury at Washington.

"Who defends demonetization of silver? Every man connected with it, except Senator Sherman, denies having had knowledge of it at the time. The Senator leaves it to be inferred in his Paulding speech that it was done after full debate, yet he must know that Garfield, Allison, Thurman, Voorhees, Blaine, Conkling, Howe, Cannon, Beck, and scores of others, have repeatedly denied any knowledge that the bill demonetized silver. He must be aware that no person asked or petitioned for it; and that the people were not cognizant of it until resumption took place; silver became cheaper in comparison with gold, and gold only through this Act and by reason of other hostile legislation and unfriendly treaties.

"The Ohio Democracy would invoke

the legislative and treaty pioneers to undo the wrong they have perpetrated and to aid, so far as lies in their power, to restore silver to its proper place and use. They believe in the doctrine of the party from Jefferson's day, that both metals should be equally used as money. They have in their platform demanded the free and unlimited coinage of both metals, for the reason that they do not believe that either of the metals alone furnishes a sufficient basis for increasing the credit transactions of the world.

"They desire the subject to be discussed by the people, and believe it will be disposed of honestly and intelligently by the next Democratic National Convention. They indignantly resent as insolent and untrue the charge that they desire to restore the free and unlimited coinage of silver in any manner except in that which will make every silver dollar as good in purchasing power as any other dollar, and worth one hundred cents, as it is to-day, wherever the American flag may cover it."

## THE STATE FAIR.

The Seventh Annual Fair of the Nevada State Agricultural Society, begins to-morrow under favorable auspices. The Directors have done everything in their power to make it a success and without money or price, have devoted much time to the details necessary to insure success. The numerous entries for the races which have closed, indicate that this feature of the Fair will be the most interesting ever seen in Nevada. Some of the very best horses on the coast will compete for the purses offered by the Society.

The stock entries to date far exceed those of last year, and insures the exhibition of many of the best animals in the State.

The space at the Pavilion is nearly all applied for and the exhibition will show what Nevada can produce in the line of fruits, vegetables and cereals, as well as in the mechanical arts. The department devoted to the handicraft of the ladies is expected to be especially inviting.

The Fair, of course, will be what the people of the State make it, and there seems to be a unanimous sentiment this year in making it as interesting and beneficial as possible. It is expected that there will be a general attendance from all parts of the State and the management as well as the citizens of Reno, generally evince a disposition to make the occasion as pleasurable as possible for visitors.

The Hamburg-American steamer Furst Bismarck, beat the best previous record between New York and Southampton, by making the trip in six days, twelve hours and fifty-eight minutes.

## DULL TIMES IN NEVADA.

The People Largely to Blame for Business Depression.

RENO, September 18, 1891.

ED. STATE JOURNAL:—While the people of the State of Nevada are complaining of dull times and a scarcity of money, does any of them stop a moment and endeavor to solve the problem of why it is thus? They, themselves, are largely to blame for this condition of affairs; and why?

They have allowed themselves to be guided, controlled and dictated to by the few to such an extent that they now have no opinions of their own, but trust to the fertility of the bosses' brain to guide them safely on, which the latter do so long as it is to their interest.

Capital cannot be persuaded into our State, for the reason that it is claimed that no person can successfully carry on a business of any magnitude without first securing the friendship, assistance and goodwill of the corporations, and this cannot very well be contradicted, for it is not a certainty but what this idea is almost a correct one.

Our State is surely capable of sustaining ten-fold more population, and efforts have repeatedly been made to advertise the advantages of a residence here, but all to no avail.

If the people would rise in one body, following in a way, the example set by Kansas farmers, and cast off the heavy yoke which now holds them down, they would soon build Nevada up, and make it what it rightfully should be, one of the most prosperous and inviting of the Western States.

Control your own politics, business and enterprises; do not let the few dictate to the many; put honest and capable men in your public offices; do not vote for a man simply because the corporations wish him in office, and that if you do not vote for him you will probably gain the enmity of the bosses, but use the independence of thought and action accorded an American citizen if you desire to place Nevada in the front rank.

Because the Republican party is largely made up of moneyed men and corporations, that is no reason why the masses of the people should vote that ticket. Your interests, especially so in politics, seldom lies in the same groove with that of the moneyed man, for what will benefit him will, in most cases, prove to your detriment. Let the dictations of your thoughts be the cue for your action, and you will, in a great measure, aid in placing the State in its proper position.

## The Public Schools Closed.

In accordance with the usual custom in Reno, the public schools closed last Friday for the State Fair, to reopen Monday, September 28th. They have now been running three weeks and all the departments are reported as well organized and doing good work.

The attendance has been good, averaging about 40 people to the room. Some of the rooms have had more. It seems too bad to close so soon after the opening of the term, but it is presumable that those in authority know what is best in the premises and have acted wisely.

Mr. and Mrs. B. F. Currier left last night for San Francisco.

## BY TELEGRAPH!

## News of Importance From Home and Abroad.

## A Social Sensation.

Special to the Journal.

CHICAGO, September 19.—Another social sensation to which Miss Gertrude W. Potter, the daughter of O. W. Potter, the millionaire president of the Illinois Steel Company, is a party, developed this afternoon at the residence of her parents in the Virginia Apartment House to-day when she was married to Julius Clark Daniels of New York City. The groom is a son of George H. Daniels, General Passenger and Ticket Agent of the New York Central road. The bride and groom left for the east this afternoon.

The wedding adds another sensation to the recent developments concerning Miss Potter. An authorized statement made for the family this afternoon adds heretofore an unknown feature to the affair. The statement says: Julius Clark Daniels secured a license in Chicago under the name of Julius Clark to marry Gertrude Whiting Potter under the name of Gertrude White. The couple were married the first of January, 1890, by Rev. R. A. John, pastor of St. John's Church, Chicago. The parties continued to live at their respective homes. Subsequently Miss Potter submitted to legal counsel the question of the validity of her marriage with Daniels, and was advised and believed that such marriage was invalid. They then informed F. Lee Rust of the circumstances, thereupon both parties, believing they had a right to do so, and the ceremony of marriage was performed June 6th last. Both of the ceremonies were secret and unknown till recently to the parents of any of the parties concerned. The statement then gives the details of the suit for a decree of annulment of the marriage with young Rust a few days ago by Judge Horton.

## A Muddled Affair.

Special to the Journal.

NEVADA, Cal., September 19.—Constable Butler of Rocklin, Placer county, arrived this evening with Charles M. Carmen, arrested by him at Roseville Junction early yesterday morning on suspicion of being the murderer of Superintendent Galavotti. Some railroad men claim to recognize him as the desperado who was driven out of Fresno county last year, although he claims never to have been there. He is inquisitive and protests his innocence. It is generally thought here that he is not the man wanted.

Constable Penrose and Phil Folke, who left North Bloomfield on horseback yesterday morning to follow Suspect Clark into the meadows of Lake county, have not been heard from since. Alarm concerning their welfare is heard on all sides at North Bloomfield. They are brave fellows, experienced hunters and unerring riflemen. If they ran Clarke down and he shows fight there will be bloodshed, if John Clarke takes a hand with his brother George in trying to stand off his pursuers, it may result in no one being left to tell the story of the battle.

## Considered a Joke.

Special to the Journal.

CITY OF MEXICO, September 19.—The so-called revolutionary movement at Laredo is a subject of ridicule here. The invading force of General Francisco Ruiz Sandoval will be given a warm reception. Sandoval was expelled from this city and country for sedition some two years ago, and several months ago attempted to raid into this Republic, but was forced to swim the Rio Grande with his companions, who were discovered in their hiding place in banks in a nude condition. He was imprisoned, released on bail, and after his trial was set free. In government circles a vain glorious pronouncement of Sandoval and Garcia is considered a most excellent joke.

## Sleeping Car Thieves.

Special to the Journal.

DAVISVILLE, Cal., September 19.—An attempt to rob the sleeping car on train No. 2 was made two miles east of Elmira by two negro men. They were driven from the train and afterwards arrested at this place, and are now in jail in Sacramento. They were merely a couple of sneak thieves.

The inquest of Mail Agent Quigley resulted in a verdict for exonerating the company. The cause of the accident was the spreading of the rails, due to the intense heat.

## Prize Fight at Sacramento.

Special to the Journal.

SACRAMENTO, September 19.—Charles Turner of Stockton and Dave Hatch, the Southern California champion, fought to a finish last night, near the end of Riverside road. The men fought with two-ounce gloves.

In the first round Turner knocked Hatch down twice.

In the second the southern champion was punished severely, and in the third he was put sound to sleep by a terrific right-hander on the neck.

The purse was small.

## Fire at Needles, Cal.

Special to the Journal.

LOS ANGELES, September 19.—The business portion of the town of Needles, Cal., was burned this morning. The mercantile house of Monaghan & Murphy is the only one not burned. The fire originated in the restaurant kitchen of Wm. Luback. The total losses aggregate over \$37,000. Insurance over \$10,000.

Dom Pedro the ex-Emperor of Brazil, has not left his room at Vichy for some weeks. The chronic heart disease from which he suffers, is now complicated by a state of profound melancholia, from which it is impossible to arouse him.

## INSANE IN THE SAGEBRUSH.

Wandering About Nude as When Born.

Yesterday F. Lemmons, who arrived from his ranch reported that he saw a naked man on the Honey Lake road, about a mile and a half from town. Sheriff Caughlin and Officer Coats left immediately to capture the man, who was supposed to be a lunatic. Near the place indicated by Mr. Lemmons, they found the man stark naked. The Sheriff asked him why he had taken off his clothes and what he had done with them. He replied in broken English that he had been ordered to do so and pointed to where his clothes were inside a barbed wire fence.

The Sheriff found the clothes and ordered the man to dress and assisted him in doing so. He had a pair of new shoes, in one of which there was \$2.30. The man was brought to town and lodged in jail. He says his name is Peter Westerberg, and that he is a native of Sweden, aged about 28 years. He was examined by a Commission consisting of Judge Cheney, Clerk Perry and Drs. Lewis and Dawson, who are of the opinion that he is temporarily insane from excessive drinking and decided to hold him for a few days until they are satisfied.

## Deafness Can't Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any Deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free.

E. J. CHENEY, Toledo, Ohio.

Sold by all druggists.

## For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach, and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the most perfect of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

When Baby was sick, we gave her Castoria.  
When she was a Child, she cried for Castoria.  
When she became Miss, she clung to Castoria.  
When she had Children, she gave them Castoria.

The only no fly lunch counter, and for many other reasons the most convenient, cheapest and best place to go for your meals, lunches and also all kinds of drinks, cigars and lodgings. **STARR & BLOCK'S.**

The Palace Hotel, which is well and favorably known to every old Nevada, is being conducted as usual by that veteran landlord, Al White, who spares neither pains nor purse to provide for the comfort and convenience of guests.

John Sunderland has a fine stock of French and English goods and is turning out some finely finished suits to order. His tailors are first class workmen.

## WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors," which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

## How Can SCROFULA BE CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofula sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLLE, Nauright, N. J.

N. B. Be sure to get only Hood's Sarsaparilla Sold by all druggists. **100 Doses One Dollar**

Bar Silver 98 1/2.  
"Incog" last night was good.  
Reno is rapidly filling up with visitors for the Fair.  
Miss Lexie Finlayson has returned from Los Angeles.  
J. A. Monroe of Loyallton is registered at the Palace.  
Rooms to rent during Fair week. See 50-cent column.  
Miss Motley has the latest styles. See 50-cent column.  
James Newlands of Virginia City was in Reno yesterday.  
Were you "in it" Friday night is the question of to-day.  
House in Powning's addition for sale. See 50-cent column.  
Alf Chantz departed for Virginia City yesterday morning.  
Mr. and Mrs. A. Banta returned from Sacramento yesterday.  
F. H. Norcross, principal of the Verdi public school is in town.  
Senator Stewart left for Carson yesterday and will return to the State Fair.  
Is there a word in English which contains all the vowels? Unquestionably.  
J. W. Mackay came up from San Francisco yesterday and went on to Virginia City.  
Miss Lola Thoma has so far recovered from her recent accident as to be on the street again.  
Colonel E. D. Boyle of Virginia City arrived on last evening's train, on his way to California.  
Colonel C. C. Thomas of Sutor, accompanied by his wife and daughter, left for San Francisco last night.  
The University faculty will receive a new addition soon from the East; a Professor of Theoretical Mechanics.  
G. A. Krenkle and family of Winnemucca passed through yesterday, homeward bound from the California State Fair.  
A detachment of 17 soldiers passed through Reno yesterday afternoon on their way to Angel Island under charge of a private.  
G. O. Green, who has been connected with the Western Union Telegraph Office at this place, for some time, will leave this evening for San Francisco.  
Archie Farrington, with his coat off and sleeves rolled up, has a force of men at work at the Reduction Works, clearing away the debris for a new mill.  
Officer Nash rested comparatively easy yesterday, and strong hopes are entertained of his full recovery. The bullet has not yet been definitely located, however.  
Attention is directed to the professional card of Dr. W. H. Patterson. The doctor is an experienced surgeon and physician, and is highly recommended as a citizen and doctor.  
Charles Sadler, an inmate of the County Hospital, was adjudged insane yesterday and taken to the Asylum. He was violent night before last, and attempted to clean out the hospital.  
The University tennis players are in active training for the coming tournament to be held in Reno during the latter part of October. Among the best players who will enter are Magill, Sheriff and Barney.  
The cause of the arc lights going out on Friday evening was the breaking of the large driving belt at the lower station. It caused some inconvenience but the accident could not be helped and was remedied as soon as possible.  
To-morrow's programme for the races is a good one. The first race will be a mile dash, selling purse for \$200. The second will be a five-eighths mile dash for two-year-olds, in which are entered some of the best colts on the coast. The third will be a 1-1/2 mile dash, free for all.  
E. Crane was in from his ranch near Steamboat Springs yesterday. He says the report that a disease had broken out among his horses and killed several of them was wholly unfounded. Two of his horses were bitten by a rattlesnake which found its way into the stable. He was away from home at the time or he would have contradicted the report when it was first circulated.  
The Directors of the Nevada State Fair have arranged for a free for all race for trotters and pacers for a purse of \$1,200 to take place during the week, in which the following entries have been made: Frank M., record 2:18, Turk Franklin 1:16 1/2, Our Dick 1:17 1/2, Gold Medal 1:14 1/2, Hammer 1:18 1/2. Those who fail to see this race will miss seeing the fastest heats ever made in this State.  
Church Notices.  
Services at the Baptist Church at the usual hours to-day. Morning subject: "The Benefits of Being a Christian." Evening subject: "On the Life of Christ," with illustrations. Everybody invited.  
Subject of sermon at the Congregational Church at 11 A. M. to-day will be "The Incomparable Life. Evening: "Love the Fulfilling of the Law." Sunday School begins immediately after the close of the morning service. All are cordially invited to attend.  
Morning prayer and sermon at Trinity Church at 11 A. M. Evensong without sermon at 7:30 P. M. Sunday School at 12:30 P. M.  
Next Sabbath at the M. E. Church in the morning our theme will be "Perfect Love," and in the evening "The Christian Soldier." All are cordially invited.

VERDI NOTES.  
The Bull Invention.—Steam Wagons—State and Other Matters.  
Verdi, September 18, 1891.  
EDITOR STATE JOURNAL:—Believing that this section of the country is worthy of some notice, I will attempt to give you a few of the points of Verdi which have struck me as being interesting, in the hope that it may prove of some interest to others.  
First in regard to the town itself, something might be said. Its location, situated as it is on the beautiful Truckee, surrounded on all sides by high mountains, is picturesque. Those directly to the west rising into the main chain of the Sierras and covered with a thick growth of pines, presents one of the most charming landscapes imaginable. Verdi, if not the most important, has to my mind the most delightful surroundings of any town in our State. Besides, I believe, there is a bright future for this little village, as no better water power can be found on the coast than that in this vicinity.  
But I must hasten on to other points. Many things of interest can be found here.  
THE BULL MACHINE.  
Here can be seen probably the most remarkable attempt at an invention of perpetual motion ever concocted since the fall of Adam. To describe this wonderful piece of mechanism is too great a task for my humble powers. Suffice it to say that about \$3,000 was expended in its construction, and when it was completed, instead of running on forever, as was expected, there were not men enough present with all their combined powers to turn it. I understand the inventor, D. F. Bull, intended to go East with his machine and probably ask aid from Congress to carry on his work, but that expedition is still and ever will remain a matter of futurity. It might be a good idea for Nevada, if she hasn't anything else to exhibit at the World's Fair, to send the Bull wheel to Chicago, that it may stand out to all the world as a glaring example of the folly of attempting to create energy out of nothing.  
STEAM WAGONS.  
But I will pass on from this to one that is worthy of great notice, for on the pages of history are recorded many inventions of far less importance than that of Doane's steam wagon, which forms one of the interesting features of Verdi. There are two of these wagons, and they are really not wagons at all, but powerful steam engines which make the round trip from Lewis' saw mill to this place, a distance of about forty miles, every day and a half. These two engines haul about 70,000 feet of lumber at a trip, and during the time they have been in operation this Summer have averaged about 1,000,000 feet a month. Three sets of wagons, numbering fifty-four in all, are needed to keep these engines busy. An engine and seven wagons constitute a train, and it is a sight seldom seen and one not soon to be forgotten to see these two trains winding over a mountainous road, up hill and down, always at the same speed, which, when loaded, is about four miles an hour. In size these engines are larger than most locomotives, and in point of power they probably exceed any locomotive in existence. This may at first be doubted, but the construction of these engines and the fact that their cylinders are much larger than those of the locomotives makes everything favorable for their superior strength. The forward portion of the engine rests on a single wheel, and it is with this that the whole train is guided, it acting much on the same principle as the rudder on a ship. The machines are owned by Captain J. M. Roberts of Sacramento, one of the most thorough business men on the coast, a man who has amazed a large fortune by honest industry and close economy. Mr. Doane, the inventor, is employed as General Superintendent of the entire works. At present he is running an engine, during the sickness of one of the engineers. The recent rains, though they caused a little delay, have been a great help to steam wagon people, on account of improving the condition of the roads. Those who have not seen the steam wagon will find something of interest at Verdi.  
NEWS SCARCER.  
General news is scarce with us at Verdi. The public school, which opened a couple of weeks ago, is in a good condition, about sixty pupils being enrolled.  
George Fonks left the first of the week for Berkeley, where he goes to resume his studies at the University of California.  
Occasionally a festive nimrod is seen passing through the town with pole and sack on his way to the fine fishing pools, only to be found in the vicinity of Verdi.  
M. J. Curtis is fast completing the bridge across the river below town. By the use of a liberal quantity of paste the broken and rotten timbers of the old bridge might, I think, have been stuck together so that they would have held for a long time, and then Curtis could not have had the chance to rob the county he is now having. I am quite sure some one would have furnished the flour necessary for the paste free of charge.  
NOTICE TO THE PUBLIC.  
Having re-fitted my barber shop and built house with extra fine porcelain bath tubs, my bathing facilities surpass anything of the kind in this State, without any exception. Nothing but first-class work at C. Coleman's, west side of Virginia street, next to Fredrick's jewelry store.
